

SYED UMER SHAH

FULL STACK DEVELOPER

Karachi Pakistan | sumerfreelance@gmail.com | +92 344 2437207 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Passionate and results-driven Full Stack Developer with professional experience in designing, developing, and maintaining enterprise web applications. Currently working as a Junior Application Developer at Deister Software Pakistan, contributing to the development of business-critical systems including Customer Relationship Management (CRM), IT Service Management (ITSM), Travel Management, Point of Sale (POS), and other enterprise solutions. Strong foundation in frontend and backend development with a focus on scalable architecture, clean code, database management, and business process automation. Dedicated to continuous learning and delivering high-quality software solutions that improve efficiency and user experience.

PROFESSIONAL HIGHLIGHTS

- 2+ Years of Web Development experience as a Junior Application Developer at Deister Software Pakistan.
- Experience in CRM, ITSM, Travel Management, POS, and other enterprise business applications.
- Contributed to the development, maintenance, and enhancement of enterprise software solutions.
- Developed Full Stack, Frontend, and Backend web applications using modern technologies.
- Strong knowledge of React.js, JavaScript, PHP, MySQL, REST APIs, Agile Development, and Debugging.
- Collaborated with cross-functional teams to deliver reliable, scalable, and business-focused applications.
- Committed to building scalable, maintainable, and high-performance software solutions.

PROFESSIONAL EXPERIENCE

Junior Application Developer

Deister Software Pakistan (SMC-Private) Limited August 2024 – Present

Working as part of the Application Development Team, contributing to the design, customization, development, and maintenance of enterprise software solutions. Collaborate with cross-functional teams to implement scalable business applications, enhance system functionality, and support organizations through reliable and efficient software.

- Developed and enhanced enterprise business applications.
- Implemented new modules and features based on business requirements.
- Designed transactional forms, dashboards, and workflow modules.
- Collaborated with cross-functional teams throughout the software development lifecycle.
- Investigated and resolved application issues to improve system stability.
- Participated in software maintenance, testing, and deployment activities.

FEATURED PROJECTS

Academic GPA Calculator

February 2026

Developed a modern academic GPA calculator that enables students to calculate weighted GPA accurately by entering subjects, credit hours, and marks. The application generates professional academic transcripts in PDF format and provides a responsive, user-friendly interface for a seamless experience.

- GPA calculation based on credit hours
- Automatic grade evaluation
- Transcript PDF generation
- Responsive interface
- Feedback integration via Google Forms and Email
- Project Link: [Live Demo](#)

Weather Dashboard

May 2026

Designed and developed a responsive weather dashboard that provides real-time weather information using API integration. The application features dynamic charts, weekly forecasts, Air Quality Index (AQI), smart city search, and Dark/Light mode support.

- Real-time weather updates
- Seven-day weather forecast
- Air Quality Index (AQI)
- Interactive analytics charts
- Smart city search
- Dark & Light mode
- Responsive dashboard
- Project Link: [Live Demo](#)

FEATURED PROJECTS

Expense Tracker

July 2024

Developed a modern and responsive Expense Tracker web application that helps users efficiently manage their daily income and expenses. The application provides an intuitive dashboard for recording financial transactions, tracking spending patterns, and monitoring account balances through an interactive and user-friendly interface. It enables users to organize their finances, categorize expenses, and gain better insights into their financial activities.

- Add, edit, and delete expense transactions
- Real-time balance and expense tracking
- Responsive interface for all devices
- Modern React.js component-based architecture
- Project Link: [Live Demo](#)

University Complaint Management System (UCMS)

May 2024

Developed a centralized complaint management platform that enables universities to manage student complaints efficiently while improving transparency, communication, and issue resolution.

- Complaint submission and tracking
- Administrative complaint management
- Database-driven records
- Secure complaint handling
- User-friendly interface
- Project Link: [Live Demo](#)

EDUCATION

Bachelor of Science in Computer Science (BSCS)

September 2023 – Present

Sindh Madressatul Islam University (SMIU)

- Relevant Coursework: Web Engineering, Database Systems, Software Engineering, Object-Oriented Programming, Data Structures, Computer Networks, and Cloud Computing.
- Currently Pursuing.

Higher Secondary Certificate (HSC) – Pre-Engineering

2021 – 2023

Sindh Muslim Government Science College

- Relevant Coursework: Mathematics, Chemistry, and Physics.

Secondary School Certificate (SSC) – Science

2019 – 2021

Unique Children's Secondary Grammar School

- Relevant Coursework: Mathematics, Chemistry, Biology, and Physics.

CERTIFICATIONS

Web Development – Level 1

Bano Qabil

Completed professional training in HTML5, CSS3, JavaScript, Responsive Web Design, and web development fundamentals.

Web Development – Level 2

Bano Qabil

Completed advanced web development training focused on React.js, component-based architecture, modern JavaScript, state management, and scalable frontend application development.

Web Development – Level 2

Learning Resource Network (LRN)

Completed advanced web development training focused on React.js, component-based architecture, modern JavaScript, state management, and scalable frontend application development.

TECHNICAL SKILLS

Languages

HTML5, CSS3, JavaScript (ES6+), PHP, SQL, Java, C, C++

Databases

MySQL, Database Design, SQL Query Optimization

Enterprise Technologies

CRM, ITSM, Travel Management, POS, and other enterprise business applications.

Professional Skills

Problem Solving, Analytical Thinking, Team Collaboration, Leadership, Effective Communication, Agile Development, SDLC, Continuous Learning

Frameworks & Libraries

React.js, Bootstrap, Material UI, Chart.js, jsPDF

Development

Full Stack Development, REST API Integration, Responsive Web Design, Authentication & Authorization, Software Testing, Debugging

Tools

Git, GitHub, Visual Studio Code, Postman, XAMPP, MySQL Workbench, NetBeans, Figma (Basic)
